## A Smile That Gets Noticed for All the Right Reasons.

Your smile is more than an expression. It's a wearable work of art that portrays the person you are. That's why we offer In-Ovation C system braces. In-Ovation C braces are crafted from a translucent ceramic that naturally blends in with your teeth. This enables you to smile with confidence while you're getting treated. In-Ovation C is the comfortable, convenient and discrete way to transform your smile from average to artistic. But that's only the beginning.

## Adult Orthodontics.

It's not uncommon for individuals who have undergone orthodontic treatment earlier in life to find their teeth have drifted out of alignment over the years. Most adults won't think twice about bleaching their teeth to roll back the effects of time. Yet few think about the role orthodontics can play. Adults of all ages can enjoy the same cosmetic and health benefits of properly aligned teeth with In-Ovation C system braces.

"My friends often complain about having a 'metal smile' but with In-Ovation C, you can hardly notice you are wearing braces. I see an improvement in my smile and I am really glad I have In-Ovation C braces." - Haley

## Benefits Beyond Beauty.

Improperly aligned teeth can do more than undermine your confidence. They can make proper cleaning and brushing more difficult, contribute to enamel loss and even set the stage for more significant problems down the road. Fortunately discrete treatment with In-Ovation C braces can help keep you aligned with a healthy, happy lifestyle.

## Potential Health Problems from Misaligned Teeth.

- Dental Injury
- Cavities and Tooth Loss
- Diminished Bone and Gum Support
- Enamel Loss
- Muscle Soreness

## The Solution is Clear.

We believe every individual has the right to live their life with a smile they truly love. In-Ovation C helps you achieve the smile of your dreams faster, easier and more discretely than you ever dreamed possible. Embrace the confidence that comes with beautifully aligned teeth and put your smile on display. Ask your orthodontist if In-Ovation C system braces are right for you!

## The In-Ovation C Ad-Vantages.

- Natural Looking Smile During Treatment
- Enhanced Comfort
- Fewer Follow Ups
- Shorter Appointments
- No Elastics or Metal Ties
- The Smile You've Always Wanted

## Faster Treatment. Fewer Appointments.

The In-Ovation C system uses a free-sliding technology that places almost no pressure on your teeth as it gently corrects their alignment. Less pressure means a more comfortable treatment. With In-Ovation C free-sliding braces, your treatment can proceed faster with fewer follow up visits than traditional fixed wire braces.

Your Treatment. Our Talent. In Perfect Alignment.
